

Postgraduate Infection Prevention & Control 2027: Expression of Interest

These advanced postgraduate papers offer comprehensive education in Infection Prevention and Control (IPC) for 2027. These courses cover both theoretical foundations and applied clinical practice.

**NURS471:
Foundations
of IPC
(30 Points)**

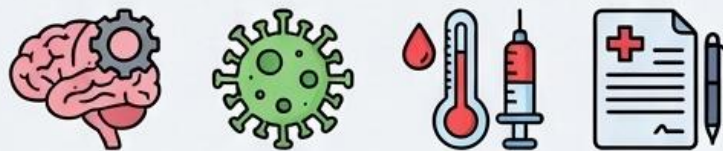

Focuses on epidemiology, microbiology, and clinical governance within theoretical IPC frameworks.

**NURS472:
IPC in
Practice
(30 Points)**

Advanced application of surveillance, risk management, and quality improvement in clinical settings.

Evidence-Informed Learning

Both papers emphasise clinical reasoning, outbreak management, and systems-based IPC guidelines.
